

PRIMO SUSTAINABLE PRODUCTS

Product Data Sheet

Primo Cera Wax Sealer

Primo Cera Wax Sealer is an all natural green building product. This all natural wax is made from beeswax, olive oil and other natural components. Primo Cera Wax Sealer provides a protective barrier over our lime based paints and plasters while still allowing the finish to breathe.

Application

Primo Cera Wax Sealer can be applied over smooth surfaces using a stainless steel trowel or a soft cotton cloth. The wax should be applied thinly with a trowel or a cloth and the excess wax then buffed off with a clean cotton cloth. A glossy surface can be achieved using an electric buffer. If applying over a textured surface, thin the product with water and use a damp sponge for application.

Color: Naturally white or light amber in color

Flash Point: 470 degrees Fahrenheit

Composition: Beeswax, olive oil, water, less than 1% other ingredients

Health Hazards: Avoid continual contact with skin or eyes. Always wear safety glasses and rubber gloves when handling mixture. Prolonged contact may irritate skin. Direct eye contact can cause permanent damage to vision. Do not ingest or inhale product. If product comes in contact with skin, wash off with soap and water. If contact with eyes occurs, flush with water and contact a physician. If product is ingested, drink plenty of water and contact a physician.

Product Handling: Whenever possible contain and sweep up spillage. Product contains alkaline material. Dispose of product in accordance with Federal, State and local regulations.
